YACHTS *of* SWEDEN

We always design the yacht around you

When you choose Najad, you have the opportunity to put your mark on one of the most enjoyable investments of your life. Together with our team of top competence in all areas of boatbuilding, you can personalize your yacht to become a personal statement. An expression of individuality and style linked to your needs on board. This interaction is a vital dynamic in our being. It constantly challenges and develops us. It keeps us at the forefront of boatbuilding, and allows us to put our mark on those magical moments.

A history of shipbuilders

Our heritage dates back to the first boatmen on the island of Orust, Sweden. They were followed by generations of skilled boatbuilders, sailors and fishermen, who lived and sailed under harsh conditions. The sea dictated the conditions and was a constant reminder of the vital necessity of quality in all things. Coming from this tradition, the first Najad was introduced in the early 1970s. The stability and sailing dynamics were a revelation. Ever since, Najad has been a leader in developing the boatbuilding tradition.

Quality with no compromise

Najad 570 CC is a world-class yacht by any measure. Superb sailing qualities are combined with easy manoeuvring by a two-man crew. Najad 570 CC is the perfect world cruiser. Relatively simple technology means that service and maintenance can be performed anywhere in the world.

Classic design, modern solutions

Najad 570 CC is of an impressive scale from all angles, from the tinted, sweeping, deck saloon windows and the large open deck areas to the fully enclosed cockpit with twin steering pedestals. Below deck the emphasis is on natural light, ample living space and luxurious comfort. The cutting-edge interior design incorporates large windows in the deckhouse and hull. The interior finish of joinery and craftsmanship is typical of Najad – practical and magnificent at all levels.

Beautiful exterior design

Built to handle the seven seas, and a cockpit dinner for eight, Najad 570 CC has something exceptional to offer the world of blue water cruising. State of the art electric system, double steering system and deck fittings suited for shorthanded sailing, to name a few. The slim hull features a narrow entry and a wide stern area, allowing good upwind performance and fast downwind cruising. These superb sailing characteristics and easy handling by a crew of two, gives you freedom and flexibility.

Tailor made interior design

Najad 570 CC is built for elegant comfort and designed for spending time with friends and family. The interior is extra light due to the large windows in the deckhouse and hull. The luxurious double linear galley located to port is equipped to meet the highest demands. The saloon has plenty of space for the whole crew to be together for meals and room for enjoying the good social life on board. The extensive list of layout options makes it possible to personalize your yacht to fulfill all your demands.

Exterior with a unique touch

Solid sliding entrance hatch made of high gloss unvarnished teak.

Shower on swimming platform.

Flush mounted deck hatches are elegant and makes it safer walking on deck.

Stainless steel pushpit with integrated teak seats.

Andersen full stainless steel self-tailing winches are standard on all Najad models.

Teak capping fitted with stainless steel rail on the outside for best possible protection.

Cow line colour of your choice.

Clean and safe with halyard lead under deck to cockpit jammers and winches.

Solid teak on deck, swimming platform and in cockpit area on all Najad ever built.

Interior with a unique touch

Floor boards made of varnished dark wood with inlaid stripes.

Bright impression with head lining of white covered panels and generous amount of windows.

Surfaces in galley and heads made of extremely durable Kerrock® material.

Soft close drawers and cabinets with high quality tactile feel.

Multiple color of settee cushion fabrics available to choose between.

Najad crockery set with plates, glasses, mugs and cutlery.

Stay in full control with monitoring panels and USB socket for charging in the cabins.

Leather covered stainless steel grab rails.

Sun blinds on portlights or pilothus windows.
