

ERES

NAJAD

Najad 331

Stiff and strong hull due to the sandwich construction and multi-axial roving laminate using ISO polyester resin and NGA gelcoat to give a water tight surface.

Fixed windscreen in toughened glass with sprayhood.

A fractional rig 19/20 with the spreaders angled backwards may be trimmed like a 7/8-mast, but have the stability of a masthead rig.

Spacious cockpit locker easily accessible under starboard seat.

Ventilated wet locker.

Large heads compartment with shower.

Functional navigation area facing forward.

Plenty of cupboards and shelves all around the yacht.

Long and nice double berth (2,05 m).

Very good ventilation and well insulated hull results in a dry and comfortable living environment.

Comfortable and very wide double berth (2,0 m).

Opening portholes

A voluminous aft cabin with standing headroom (1,78 m).

Gas stove with oven.

Pressurised freshwater.

Practical hanging locker.

Spacious forward cabin with standing headroom (1,75 m).

Integral swimming platform with ladder.

The yacht may be sailed using the Genoa only due to a large fore triangel. This also suits a self tacking jib.

Long sailing waterline for very good windward performance.

Wide and flat hull line at the stern results in high buoyancy and excellent down wind performance.

Volvo Penta 20.2 kW (28 hp) with folding propeller.

A fully balanced spade rudder with a strong rudder post (65 mm) on double roller bearings inclined aft. This guarantees easy and precise steering with directional stability.

A long fin keel of NACA wing sections with a widened base gives directional stability and reduces drag.

A sharp bow cuts the waves easily resulting in low water resistance.

In the new Najad 331 we have created a yacht with excellent sailing performance without compromising any of the traditional Najad qualities.

The Najad 331 is the result of an exciting combination of modern computerised CAD/CAM technology with craftsmanship developed from generations of quality boat building.

The Najad 331 is not only impressive to sail, it has a well designed layout, featuring two large cabins, in the bow and aft, enabling four people to live comfortably on board. The outstanding precision and high quality of finish is typical of the Najad yard which has 25 years of knowledge and experience.

There is no doubt that the new Najad 331 will be welcomed by any cruising sailor who has aspired to own a quality, ocean-going Najad.

NAJAD

Najad 331

In the new Najad 331 we have created a yacht with excellent sailing performance without compromising any of the traditional Najad qualities.

The Najad 331 is not only impressive to sail, it has a well designed layout, featuring two large cabins, in the bow and aft, enabling four people to live comfortable on board.

The outstanding precision and high quality of finish is typical of the Najad yard which has 25 years of knowledge and experience.

I nya Najad 331 har vi skapat en yacht med förträfflig seglingsprestanda, utan att det gått ut över någon av de traditionella Najad-egenskaperna.

Najad 331 är inte bara imponerande att segla, den har också en väldesignad layout, med två stora hytter för- och akteröver där fyra personer kan bo bekvämt ombord.

Den enastående precisionen och höga kvaliteten i finishen är typisk för Najadvarvet, som har 25 års kunskap och erfarenhet.

Die Najad 331 hat hervorragende Segeleigenschaften, die zugleich die gewohnte traditionelle Najadqualität bietet.

Sie lässt sich nicht nur hervorragend segeln, sondern hat auch ein schön konzipiertes Layout mit zwei großen Kabinen, die vier Personen einen komfortablen Aufenthalt an Bord ermöglichen.

25 Jahre know how und Erfahrung der Najadwerft garantieren die einzigartige Präzision und hohe Qualität in der die Najadyachten gefertigt werden.
